VOL. XXIII

RENO, WASHOE COUNTY, NEVADA, SATURDAY, AUGUST 20, 1887.

NO. 120

In Brief, and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

Old And reliable Medicines are the best to depend upon. Acker's Blood Elixir has been prescribed for years for all impurities of the Blood. In every form of Scrofulous, Syphilitic or Mercurial Diseases it is invaluable. For Rheumatism, has no equal.

W. PINNIGER, Druggist.

Merit Will Tell.

Was never better demonstrated than when "Fryer's Abietene Remedies" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Pinniger is agent for these celebrated "Abietene Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of D. F. Fryer is on each, as none are genuine without it.

The Perfection.

Of the age in the medical line is the liquid fruit remedy, Syrup of Figs, manufactured only by the California Fig Syrup Co., San Francisco, Cal. It is agreeable to the taste, acceptable to the stomach, harmless in its nature, painless yet prompt and thorough in its action. For sale by Wm. Pinniger, Reno, Nevada.

Fryer's Abietene Ointment—A combination of the gum abietene, vaseline and other therapeutic agents. The best healing and purifying remedy in the world for piles, old sores, ulcers and all eruptions of the skin. Price 25 cents. Sold by W. Pinniger, Reno, Nevada. All genuine Abietene preparations bear the fac-simile signature of D. F. Fryer.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. Hamburg Figs were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., Proprietors, San Francisco.

When baby was sick, we gave her Castoria, when she was a child she cried for Castoria, when she became Miss, she clung to Castoria, when she had children, she gave them Castoria.

Rapid Healing of the Heart.

Whenever you feel an uneasiness in the region of the heart, a slight pain in the shoulder, arm or chest, or when you find yourself short of breath when exercising, or your heart has periods of beating, or you have heart disease, and should take Dr. Flint's Heart Remedy. At druggists; 50¢. Descriptive treatise, free on request, or address J. J. Mack & Co., S. F.

The reason why Acker's Blood Elixir is warranted, is because it is the best Blood Preparation known.

It will positively cure all Blood Diseases, purifies the whole system, and thoroughly builds up the constitution. Remember, we guarantee it.

W. PINNIGER, Druggist.

California Cat-R-Cure.

The only guaranteed cure for catarrh, cold in the head, hay fever, nose cold, catarrhal deafness and sore eyes. Restores the sense of taste and smell, and relieves all resulting from catarrh. Easy and pleasant to use. Follow directions and a cure is warranted, by all druggists. See circular to ABRIETINE MEDICAL COMPANY, Oroville, Cal. Six months treatment for \$1; sent by mail, \$1.10. For sale by Osburn & Shoemaker, wholesale and retail agents.

At Night Always have Soother at hand. It is the only safe medicine yet made that will remove all infantile disorders. It contains no Opium or Morphine, but gives the child natural ease from pain. Price 25 cents. Sold by

W. PINNIGER, Druggist.

An Absolute Cure.

The ORIGINAL ABRIETINE OINTMENT is only put up in large two-ounce tins, and is an absolute cure for old sores, burns, wounds, chapped hands, skin eruptions. Will positively cure all kinds of skin. GROUP, WHOOPING COUGH and Whooping Cough immediately relieved by Shiloh's Cure, sold by Osburn & Shoemaker.

snore and Urine.

IT WAS THE TRIMMINGS.

"Blessed shade of Saint Croesus!" howled old Hyson, when Mrs. H.'s millinery bill came in. "Bank of the Universe! \$68 for a bonnet!" "Yes, dear," she said so sweetly, "these are the days of Jeffersonian simplicity. The bonnet only cost \$1.50; the rest is for the trimmings." And the old man grinned and paid the bill without a murmur. [Brooklyn Eagle.]

WHEN HE RETURNED.

Mr. Grabin, who is a candidate for Mayor, and who prides himself upon the respectability of his social relations, was met on the street by a well-dressed man.

"Ah, I am glad to see you," exclaimed the man, grasping Grabin's hand.

Grabin, who faintly remembered the man's face, and thinking that he had been away on an extended visit, slapped him on the shoulder and asked:

"Why, my dear friend, when did you return?"

"Got out to-day. The Governor pardoned me." [Arkansas Traveler.]

HE WOULD, INDEED.

"Mamma, is I a monkey?" said a little girl.

"Certainly not, my child. Who said you was a monkey?"

"Papa said I was a sweet little monkey."

"Your papa should not call you a monkey."

"I don't, papa didn't mean to call me that; but, mamma, if I was a monkey I guess papa would be awful sorry when he thinks what a monkey's papa is, wouldn't he, mamma?" [Pretzel's Weekly.]

AN EASY SENTENCE.

"You are charged with bigamy," remarked the Judge impressively, while the prisoner glanced over his shoulder at three stern-visaged women.

"Now," continued the Court, "I intend to give you the severest penalty the law allows."

Here the prisoner covered his face with his hands and wept.

"I shall sentence you to the State Prison for twenty years. What are you grinning at?"

"I thought," smiled the prisoner through his tears, "you was a-going to turn me loose." [New York Graphic.]

GETTING HIGH-TONED.

"Law sakes," said old Mrs. Relict, "all Mellins thinks of now is the skatkin' rink. And she's got so high-toned a rollin' round on them wheels that she can't even go her old mother's home-made bread now, an' she talks all the time about the Dutch rolls they have up there." [Boston Times.]

Mr. Pactolus Wilkins had been more than usually aggravating in his satires on his wife's culinary ability.

"You mean thing," said Mrs. Wilkins, bursting into tears, "I won't speak another word to you as long as I live."

"Great Heavens!" said Mr. W. "Tom, run out as quick as you can and tell Slater to send up two bazoons, a kettle-drum, four prods, and a steam calliope at once. Hurry now."

"And what under the sun do you want with all that foolish stuff?" he exclaimed the voluntary mute.

"To get accustomed to the change, my dear," replied Mr. W. "Doctor says that sudden changes are always fruitful of disease."

"I'll go right home to my mother," said Mrs. W., as she fell in a hysterical paroxysm. [St. Paul Herald.]

The Rig Connecticut Baby.

The Norwalk (Conn.) How prints an interesting account of the year-old baby who weighs 75 pounds. It says: "The mother, a slight little woman, who weighs perhaps 20 pounds more than her son, tugged away at his royal highness, and finally managed to seat him upon a lounge, and the reporter was given every opportunity for examining him. The boy has an unusually pretty face, large bright blue eyes, and light hair, which has a tendency to curl. His complexion is fair, and his little nose has just enough 'jug' about it to be interesting. His arms are so large that it is with difficulty that he can raise them to his head, while his legs are simply great bunches of fat, which are utterly incapable of sustaining the weight of his body. The boy took a great fancy to the reporter's hat, and a rained sledge hammer blows upon the crown with his fists until his mother took it away and gave him two sadoirns to play with. The iron weighed six pounds each, and the boy appeared to handle them as easily as an athlete handles a pair of twenty pound dumb-bells. He moves about on the floor with a peculiar hitching motion that is very amusing. He has eighteen teeth, and eats, his mother says, almost everything excepting pastry and candy. The boy is as bright as a dollar, very active considering his great weight, and well-proportioned from the top of his curly head to the soles of his chubby feet. When born, Sammy weighed between four and five pounds. At the end of six months his weight had increased to 40 pounds, and now, at the age of thirteen months, he weighs about 75. The father of the boy, Mr. Henry Tomkins, is employed by Fancher, Reno & Co. He is a native of Arkonia, N. Y. Mrs. Tomkins was born at Sligo, Ireland. The couple are of ordinary height and build. They were married in 1875, and this, their first child, was born at Vista. The youngster has never been sick a day.

The Hon. Joseph E. McDonald, who was prominently mentioned for a Cabinet position, got—left!—Noble County (Ind.) Democrat.

The Latest and Greatest Discovery

Dr. J. De Pradit's Hamburg Figs.—A crystallized fruit cathartic. A discovery of the greatest interest to the medical profession. A boon to every household. A most delicious laxative or purgative prepared from fruits and vegetables. So perfectly harmless that they may be administered with entire safety to an infant. So efficacious to adults that a single dose will prove their value, and so elegant a preparation that it needs only to be presented to the public to become a necessity in every household throughout the land. For liver complaint, habitual constipation, indigestion, dyspepsia and piles they are a specific. Travelers by sea and land they will be found invaluable; they are positively refreshing in their action, and this is the only medicine ever offered to the public that is acceptable to the taste, and so pleasant that children will eat the figs as eagerly as candy. For sale by every druggist throughout the world. Price, 25 cents a box. J. J. Mack & Co., Proprietors, 9 and 11 Frost street, San Francisco, Cal.

A Healthy Stomach Is a blessing for which thousands of our dyspeptic countrymen and women sigh in vain, and to obtain which swallow much medicine unavailingly. For no ailment—probably—are there so many alleged remedies as for dyspepsia. The man of humbug is constantly glutted with dollars and dimes of those who resort to one nostrum after another in the vain hope of obtaining relief, at last, from this vexatious and obstinate malady. Experience indicates Hostetter's Stomach Bitters as a means of eradicating dyspepsia, in which a firm reliance can be placed. No remedy has in three decades and over established such a reputation, none has received such unqualified professional sanction. It is an admirable invigorant, because it enriches the blood, and not only this, but it thoroughly regulates the bowels, kidneys and bladder. The nervous symptoms are usually relieved by the medicine.

SENATOR FOLEY ON EUREKA.

The Base Range Again Coming to the Fore as a Mineral Producing Region.

Senator Foley has a peculiar characteristic, that of saying good things, hopeful words about Nevada. This time he comes to the fore to speak a good word for Eureka, a town which it was supposed had been moved almost bodily over to Reno; which, it has been rumored, millions of bats are hovering around to take possession of, and countless snakes and lizards are crawling towards expecting to make nests there to breed only varmints. Foley has just returned from Eureka and he says there is no cause for apprehension; white folks there are still on top. He says actually that Eureka to-day wears a brighter countenance, has a better business outlook than at any time within the past three years. No ore who is able to work and will work is out of employment. The Eureka Con. and the Richmond each has two furnaces in operation. These two mines yield monthly over \$150,000 in bullion, and Superintendent Hank Donnelly says that the former mine now has \$75,000 in the treasury and will pay twelve percent monthly dividends each of 25 cents per share.

Hon. Thomas Wren is operating ultra beds near Mount Hope that will astonish the world. Nitre is worth \$200 per ton and these beds have immense quantities of nitre 60 percent of which is pure. Senator Foley said much in this strain to the GAZETTE reporter last evening, and as he knows what he is talking about, and they say, always talks gospel truth, these statements are given to the readers of the GAZETTE as truths which should interest the whole State.

Webster Baisas Lucas One. Another disciple of Walton returned Friday evening from the haunts of the flinty tribe in the person of Judge W. Webster, who has been spending a pleasant week on the shores of Pyramid lake. Although modest (all lawyers are) in speaking of his luck as an angler, he states that during his fishing experience of three days over 400 pounds of trout were captured by his party. He spent the greater part of yesterday in distributing a portion of his "catch" among his many friends in Reno, not forgetting the GAZETTE office when going the rounds.

The Rev. Wm. Lucas, whose exploits as an angler in the mountains of Santa Cruz, Cal., were noticed in yesterday's issue, has, since the return of Judge Webster, been as dumb as an oyster regarding his trip, but says he has reserved his best fish story for a clincher if the legal fight doesn't soon drop on himself.

Old Hoop has Chink. Old Hoop county is in some respects still isolated from Washoe. One of the old settlers up there said here the other day, "We have not much to do with the rest of the county except to pay our taxes. We have no use for the courts, for if we get into trouble we settle it either with fists or shot-guns. But we have a good grazing country, and just as much chink as any of the n." Among these wealthy ranchers and stockmen are Ward Brothers, W. H. Murdock, Clarke & Patterson, John Stevens, T. J. Cummings, Ayres & Poor and H. F. McConaughy & Co. The following is the list of names of persons drawn to serve on the jury: L. D. Folson, A. A. Evans, A. H. Manning, John Boynton, W. R. Chamberlain, John Sunderland, B. F. Sheldon, J. F. Emmitt, Hugh Nugent, M. E. Ward, W. H. Gould, S. C. Fogus, E. C. Sessions, J. T. Longabaugh, H. P. Kraus, L. A. Abrahams, C. S. Martin, Sol. Levy, J. A. FitzGerald, J. G. Becker, A. H. Barnes, E. C. Leadbetter, D. Bole, I. N. Baker.

A Local Dick Turpin. A highwayman stopped the Forest Hill stage last week and took about \$350. Not satisfied with his day's work he sought for new fields to conquer. On the same road he stopped and robbed at different times three men, who were traveling in teams. A man named John Barney was the first to meet the robber. He was relieved of \$250. The next to meet the knight of the road was Dick Barkman. He handed over \$40 and a silver watch. The last, so far as known, was Jack Connolly, who presented the road agent with \$80, at the same time apologizing for the meagerness of his contribution.

A Painful Accident. Last evening about 7 o'clock Lily Lodge, the 13-year-old daughter of Dave Lodge, was run over by a team belonging to Mrs. Martin. One of the wheels passed over the girl's right leg, which was broken above the ankle. Medical aid was summoned and the fractured limb set. Though the injury is very painful, it is not serious, and Miss Lily will be about again before long as lively as ever. This is said to be a case of careless driving, and should be a warning to reckless drivers generally.

The District Court. The District Court was in session this morning. No special business was transacted other than the ordering of a Grand Jury for next Tuesday.

PERSONAL.

Judge and Mrs. Marshall returned last evening from California.

Schoolmaster General Dovey returned to Carson this morning.

Attorney "Hank" Mitchell, of Eureka, was a passenger last evening for San Francisco.

James Logan, of Oakland, arrived here yesterday morning, and will hereafter reside among us.

A. C. Hamilton, Superintendent Chollar and Potomac mines, returned from the Bay this morning to Virginia City.

A. N. Lowe, late of the school at Monteville has been engaged to teach the public school at Logansville next year.

R. W. Parry, of the Depot Hotel, is doing the grand in Paris. He took in the great barbecue of Buffalo Bill in London.

Mrs. Wallace, daughter of Road Supervisor Hill, arrived from Long Valley last evening, and will spend a few days visiting her parents.

Editor Taggart, of the Enterprise, passed through here last evening for San Francisco, where he goes to meet on business, Whitelaw Reid, of the New York Tribune.

Hon. Pat. Reddy, who has been at Darwin during the past couple of months, looking after his mining interests, has returned to San Francisco, the Court vacation having ended.

Professor Leroy D. Brown, wife and two sons, Tom and Joe, will arrive at Reno on this evening's train from the East and for the present will put up at the Depot Hotel.

Norman Wines has left Elko for Santa Barbara, California, where he will remain until the 1st of October at which time he will go to Chicago where he will locate permanently.

W. S. Hobart, the millionaire, came up from below this morning and went on East. He expects to be gone six weeks visiting his old home in Vermont and many other places of interest.

M. N. Putnam, who took the Reno excursion party east last month, was seriously injured the other day by being knocked down with the cars. He is at his home in San Jose.

Chris Batterman, brother of Mrs. R. H. Lindsay, and who was formerly Superintendent of the Head Center mine, Arizona, is now Superintendent of the Noble gold mine near Sheridan, Montana.

M. G. D. Hines, of the Resources of California, has just honored this office with a pleasant call. He is full of facts and figures of the resources of Washoe county, and gives more reasons why Reno should boom than any other man we have ever met.

M. B. F. Leete returned last evening from Gold Mountain, where he is carrying on some mining operations. Says he has just secured a perfect title to his property and will resume work there. He has great faith in that mining district. Among other improvements making here is a new mill just up by L. P. Drexler and other San Francisco capitalists.

His Real Object. It is rumored that Sam Davis, of the Appeal, with a sort of ambulance wagon, has gone up in the vicinity of Tahoe to look after the deer wounded by the GAZETTE reporter and other famous animals now in that region. Some people think that he has gone thither out of kindness of his heart, but others surmise that he is a "camp follower" in disguise and is after the spoils of war.

RENO WATER.

A Scientific Analysis of that Supplied the Town and of Hunter Creek.

RENO WATER COMPANY. OFFICE OF C. M. FASSETT, DRUGGIST AND ANALYST. RENO, NEV., June 18, 1887.

T. K. HYMAN, Esq., CHAIRMAN BOARD OF COUNTY COMMISSIONERS—DEAR SIR: In accordance with your request I have made a chemical analysis of the water furnished by you, with special reference to such impurities as would render it unsuitable for domestic and agricultural purposes. I beg leave to present the following report:

Sample No. 1 was taken from the river about ten miles above the point where the Highland ditch takes its supply; sample No. 2 was taken from the main reservoir, just below the dam, near where the water used in the town is taken; sample No. 3 was taken from the Highland ditch just before it empties into the main reservoir. The following is a tabulated statement of the results of the tests made:

(In parts per million.)

SAMPLES.	No. 1.	No. 2.	No. 3.
Free ammonia.....	0.078	1.027	0.078
Albumenoid ammonia.....	.063	.239	.069

(In grains per gallon.)

SAMPLES.	No. 1.	No. 2.	No. 3.
Total solids.....	5.239	6.798	8.239
Organic solids.....	.614	.9216	.614
Mineral matter.....	4.625	5.876	7.625
Chlorine.....	Trace	Trace	Trace

The ammonia found indicates the presence of contamination from animal sources, such as sewage, decomposing animal matter, etc., and in Nos. 1 and 3 is in such amount as to be expected in a stream which flows through many towns as the Truckee; while in No. 2 it is in three times the quantity as in the others, and above the limit of safety—fixed by most authorities at .08 to .12 parts free ammonia, and .18 to .20 parts albumenoid ammonia per million of water.

The second table shows the results obtained from careful evaporation of the water; drying and igniting of the residue in platinum crucibles, and proves that the water of the Truckee is as free from many natural impurities, such as iron, as that supplied to almost any city of the Union.

Impurities resulting from sawdust in the river would be shown in the table under the head of "organic solids," but the results obtained show that the amount of such matter is very small; much less, indeed, than is contained in many natural springs, some of which carry five grains or more of organic matter to the gallon just where they bubble from the earth.

The comparatively large amount of total solids in sample No. 2 is accounted for by the fact that the sample was taken from the ditch the second day the water was running in it, after it had been empty for a few days, the water naturally being turbid from fine particles of silt taken up from the bed of the ditch, and to its health.

The samples all show an alkaline reaction, but so slight as to be immaterial; being less than one-tenth of the limit of safety, placed at an "alkalinity greater than that produced by adding one part

by weight of caustic soda to one thousand parts of distilled water."

First—That the water supplied to the town through the main reservoir is not sufficiently pure to be used for domestic purposes with safety.

Secondly—That the water in the river is reasonably pure and wholesome, and cannot be sold in competition with the multitude of low test, short weight alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 106 Wall St., N. Y.

As applicable to the sawdust question, I quote the following extract from an article on water by Professor S. P. Sadtler, Ph. D., Professor of Chemistry in the University of Pennsylvania, etc.: "Organic matter may be derived from a vegetable source, such as wheat mould, and the decomposition products of wood, in which case it is practically harmless, or it may be derived from animal sources, in which case it almost always causes a serious impurity."

Respectfully submitted, C. M. FASSETT, Analyst.

RENO, Nevada, July 14, 1887.

RENO AND HUNTER CREEK WATER CO.—GENTLEMEN:—A few days ago, at the request of, and in company with Mr. James Mayberry, of your corporation, I visited Hunter Creek and obtained a sample of water from that stream, which I have carefully analyzed with results as stated below:

I find the water to be soft, clear and without color, odor or taste; of slight alkaline reaction and containing no trace of contamination from animal sources. It contains a trace of organic matter of vegetable origin, and 4.468 grains of mineral matter per gallon, consisting principally of silica and salts of lime and iron.

These results show that the water of Hunter Creek is of remarkable purity and eminently fitted for drinking and all domestic uses—in fact, a water more pure and healthful would be hard to find anywhere. Reno is to be congratulated on having an available supply of such excellent water.

Very respectfully yours, C. M. FASSETT, Analyst.
